

## Don Williams *Reflections* March, 2014

*On March 11, 2014, Don Williams released his latest album, Reflections, on Sugar Hill Records. In a career spanning four decades, Don Williams has remained a steadfast presence in country music. His style has been described as “laid-back,” however, it can perhaps be described more accurately as “patient.” With Reflections, as with all Don Williams records, Williams is an observer of life, his voice tinged with wisdom and experience. Williams is like a fine guitar, its tone growing richer and warmer with each year. Reflections is the crowning achievement in Williams’ decades-long career, as it is a testament to his consistency as an artist, and to a career built on character. Don Williams truly was and is, the “Gentle Giant.”*
